Summary

A versatile technologist and Certified Software Engineer with a unique trifecta of experience in AI, financial trading, and IT systems. Adept at dissecting complex systems, whether debugging code, strategizing in financial markets, or engineering AI prompts. This innate drive to find patterns and optimize outcomes is now being formally applied to Data Analysis through the Google Data Analyst certification. I am seeking a challenging role in a forward-thinking organization where I can merge my passions for technology and strategy to deliver innovative data solutions and grow into a world-class analyst.
